About us

Digital Care is the pioneer and leader in the field of digital health in Pakistan. Our innovative digital health products, solutions, services, training programs and business consulting encompass multiple domains.

Smart Hospitals | Connected Health | eLearning | Health Portals

Telemedicine | Mobile Apps | A.I. | Data Analytics | Physician Portals | AR/VR

With an unprecedented 'list of firsts' to its credit, Digital Care has led the eHealth revolution in Pakistan and the region with initiatives such as national and international conferences, Hub and Spoke telemedicine project, medical call center, virtual hospital, world's first connected health model, among many others.

Mission

"Create Innovative Digital Health Solutions to Develop Patient Centeric and Safe Health Care Systems".
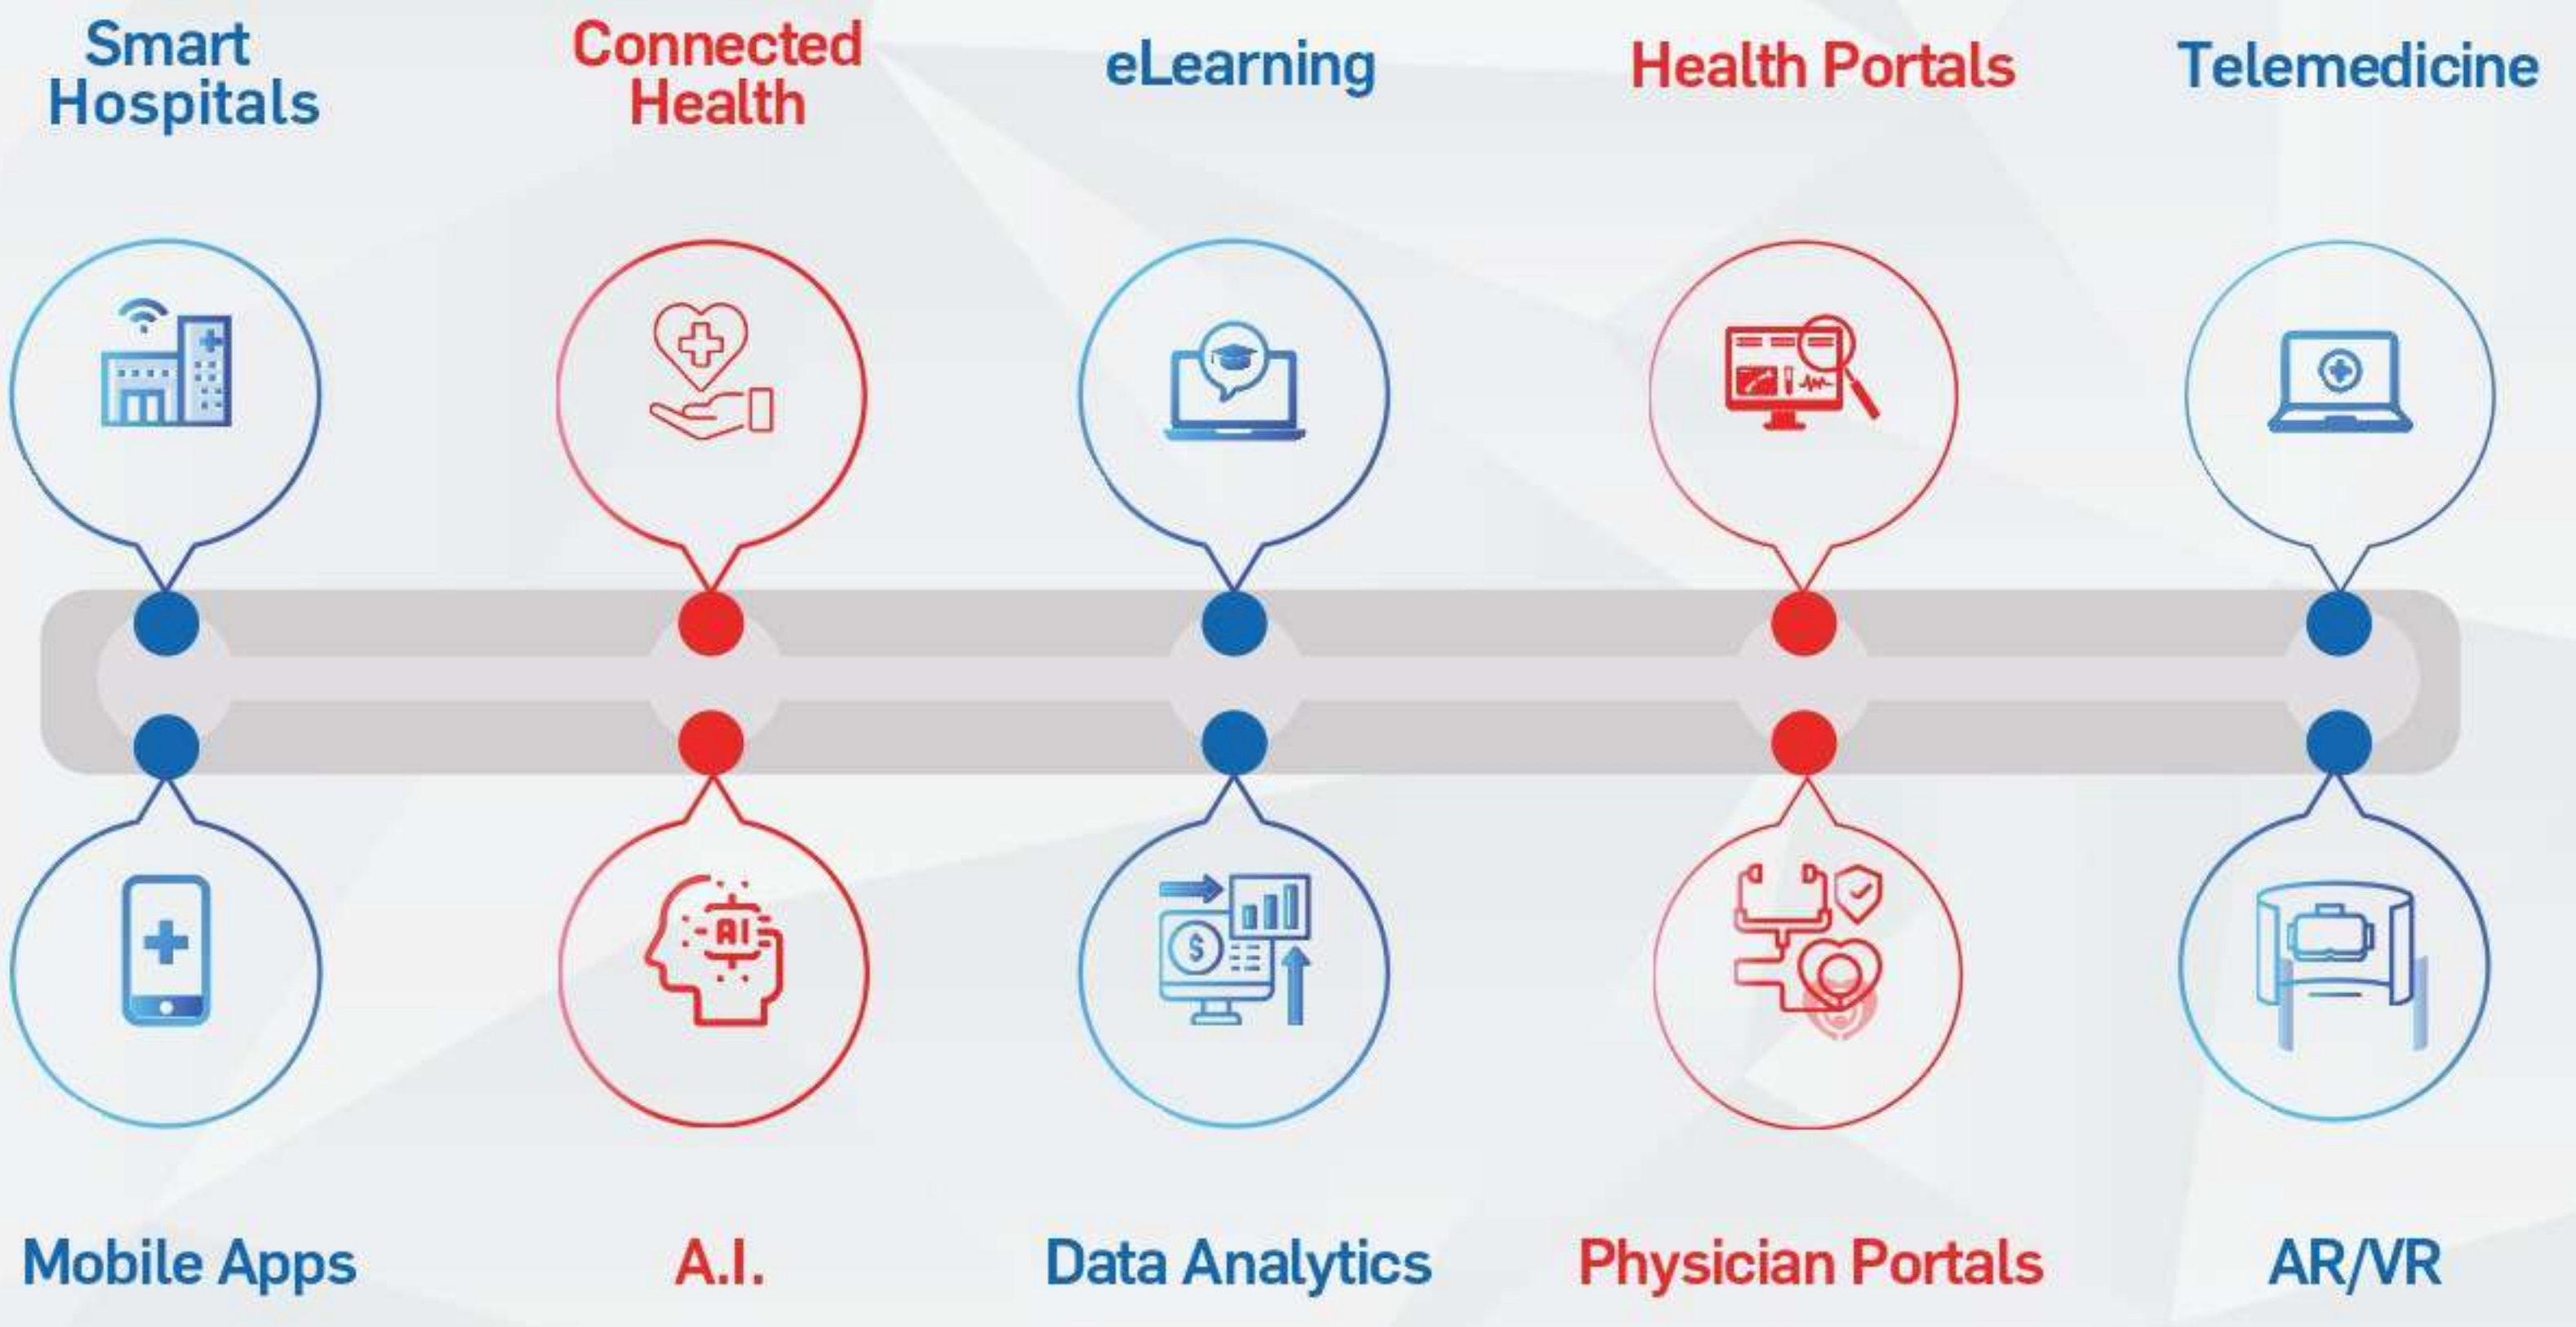

What We Do?

We create value for our partners by:

- Providing digital healthcare solutions with the aim of empowering the patient and creating a 360° connectivity path for the doctors to reach out to their patients with ease.
- Giving utmost priority to quality patient care by fostering patient centricity, patient safety and physician advocacy.
- Developing customized, tailor-made healthcare solutions that add value to patient journey
- Streamlining and facilitating the relationship between the patient and healthcare professionals, making the interation more efficient and effective.
- Developing innovative solutions which reduce costs, hospitals readmissions and preventable medical errors.
- Bridging the gap between researchers, academia, health care professionals and regulators for learning and knowledge sharing
- Organizing activities to bring together all relevant stakeholders.
- Helping our partners in achieving their objectives and succeeding in their digital health projects.
